Lindbergh High School, located in Renton, is named after Charles A. Lindbergh. Community members chose to name the high school after Lindbergh to represent his role as a great aviator and symbolize the importance of the aviation community in Renton. Charles Lindbergh succeeded in his first solo non-stop flight in 1927. The high school opened 45 years later in 1972. Since Lindbergh was known as the "Lone Eagle," the high school's mascot is the eagle.
